Advanced Diploma Programme in Dementia Care
支援腦退化症實務高等文憑課程
2018-2019

Course objective
The key objective of the course is to develop an advanced understanding of multidisciplinary perspectives about dementia and approaches to dementia care. The course also aims:
- to address clinical issues in dementia care and service delivery
- to enhance the collaborative effort and holistic care by multidisciplinary intervention
- to strengthen the ethics and clinical assessments in dementia care
- to analyze the existing research, approaches and applications in local context
- to develop knowledge and skills of social services evaluation related to dementia care
**Chief organizer**  
Department of Medicine and Therapeutics, Faculty of Medicine, The Chinese University of Hong Kong (CUHK)

**Joint organizer**  
Jockey Club Centre for Positive Ageing (JCCPA), an organization which aims to uplift Hong Kong’s dementia service through providing high quality service, training and research

**Course overview**  
Curriculum:
- ADPDC C1: Understanding Dementia from Different Theoretical and Practical Perspectives
- ADPDC C2: Advanced Dementia Care and Dementia Project Development
- ADPDC C3: Practicum and Case Studies

The course contains two modules and clinical practice which the participants are required to attach in JCCPA. Each module (ADPDC C1 and ADPDC C2) consists of 12 lessons.

Lecturers from various health care professions are invited for specific topics.

**Mode of teaching**  
Lectures and clinical practice

**Programme director**  
Professor Timothy Kwok Chi Yui

**Language of instruction**  
Chinese supplemented with English
